

FINAL SCORE:

Yesterday the Tigers and the Sharks played a 5-inning softball game at the park. From the clues provided can you fill in the scoreboard, tell who won the game, and determine what the final score was ?

SCOREBOARD	1	2	3	4	5	FINAL
Tigers						
Sharks						

CLUES:

No team scored in the first inning.

The Tigers scored the first 2 runs before the beginning of the third inning.

The Sharks scored only one run in the first three innings.

At the end of the first three innings the score was 5-1, (the Sharks did not score any runs in their third at bat).

After the 4th inning was over the score was 5-3.

Now if the two teams combined to score 9 total runs in the last inning and the Sharks won the game by one run, how many runs did each team score in the 5th inning and what was the final score?
