

FINAL SCORE #3

The Reds and the Greens played a 5-inning softball game at the park yesterday. From the clues provided can you fill in the scoreboard , tell who won the game, and determine what the final score was ?

| SCOREBOARD | 1 | 2 | 3 | 4 | 5 | FINAL |
|------------|---|---|---|---|---|-------|
| REDS | | | | | | |
| GREENS | | | | | | |

CLUES:

The Greens scored first and as a matter of fact led the game 5-1 , after 3 innings (having scored single runs in their second and third at bats, while the Reds matched the Greens output in the second frame only).

If the final score was 7-6 and the Greens only had one additional at-bat, can you complete the scoreboard and determine which team was victorious (if the Reds scored 3 runs in their last chance at-bat).
