Last weekend three friends (one named Polly), took their ponies (one named Mr. Giggles), to the pony show, where each of them won a prize (one was a winner). From the clues provided, can you puzzle out which girl and which pony was the winner and which girls took the other prizes?

CLUES:

1. Pam's pony was not named Sierra, the pony that did not win.
2. Mr. Giggles won the second prize (place).
3. Polly’s pony was the winner. Pam's pony finished ahead of Penny's.
